40 YEARS OF EXPERIENCE
AT YOUR SERVICE

A LEADER ITALIAN COMPANY IN THE PROFESSIONAL CLEANING MARKET

Filmop International was founded in the early 70s as a company specialized in the manufacturing of **manual cleaning** equipment for **professional use**.

Located in the main production areas in the North East of Italy, it is a leading company in the professional cleaning market and a reliable partner for thousands of professional people who operate in this field, proud to develop the **"Made in Italy"** trademark all over the world. This is why the company has always designed, planned and produced its own products only and exclusively in Italy.

Today **Filmop International** exports to over **80 countries worldwide** with the maximum speed, reliability and efficiency. It has a French and an American branch.

A SUCCESSFUL RANGE OF PRODUCTS

During the last 30 years Filmop **has played a main role** in the process of change that has affected professional cleaning. In particular it has been the first Italian manufacturing company having a special attention to:

- **the importance of metal-replacing materials**, such as polypropylene, very strong, light and completely recyclable
- **the necessity to separate clean water from rinsing water**, a fundamental issue for a professional cleaning
- **ergonomic cleaning systems**, in order to make easier and improve the working conditions of the operators in the cleaning field

This is the basis of a successful business and production policy, that has led to a **complete range** of products for professional cleaning with **more than 4.000 finished items**.

YOUR TRUSTED PARTNER

Filmop International is not merely a supplier of cleaning tools, but also a trusted partner totally oriented towards **customer's satisfaction**.

People choosing Filmop International know they can count on a **qualified, available and efficient partner**, organized to ship orders promptly with fast and on-time deliveries.

But the added value of the company is without a doubt its **great manufacturing flexibility**: at every new customer's request follows an immediate and careful analysis by the R&D department to identify and develop the best possible solution.

Moreover, Filmop International guarantees an excellent **pre- and after-sales service** advising its customers on the cleaning system mostly fitting their own needs and supporting them with trainings on site and/or on its premises, with inspections at cleaning yards too.

THE RIGHT TOOL FOR EVERY SITUATION

Filmop provides its customers with different easy-to-use and accessible marketing tools:

- **Web site** with detailed and constantly updated information: technical sheets, catalogue downloads, updates on latest innovations and other information useful for customers
- **YouTube and Vimeo channels** with presentation videos and operating/handling instructions of products
- **Alpha Configurator Software** in order to build autonomously one's own ideal professional cleaning trolley
- **App You Fil** to easily consult the complete range of Filmop products with Tablet or Ipad and access to other updated information, even without an Internet connection

A HISTORY OF CERTIFIED AND GUARANTEED QUALITY

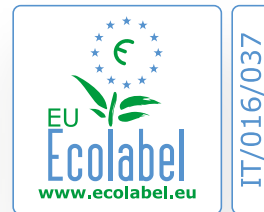

THE CERTIFICATIONS OF FILMOP INTERNATIONAL

The quality of the products and services offered by the company is guaranteed by the following certifications:

- **Quality Certification ISO 9001-2008** (Certified Company since 2000): Filmop is based on an organized company system with an efficient management, appropriate structures and an adequate knowledge.
- **Environmental Certification UNI EN ISO 14001** (Certified Company since 2011): Filmop has decided to carry out its own environment management system to keep the environmental impact of its own activities under control.
- **Plastic Second Life** (Certified Company since 2012): today Filmop can offer a wide range of products made of recycled plastic materials.
- **Ecolabel UE** (Certified Company since 2015): Filmop has obtained, for its microfiber flat mops, the prestigious eco-certification of The European Union which rewards the best low environmental impact products, qualifying and differentiating them from the competitors' ones.
- **EPD** (Certified Company since 2017): Filmop has enriched its range of green products by obtaining the EPD (Environmental Product Declaration) Certification for Alpha trolley art. A2606701U000 with Top-Down pre-soaking system. The value of uncertainty has been estimated for each category of environmental impact indicated in LCA (Life Cycle Assessment), according to UNI Italian standard 11698:2017.

The company satisfies the requirements of the European **REACH** regulation (since 2007): it purchases raw materials only from trusted and qualified suppliers, who declare to respect and follow the current laws concerning the supply chain.

Last but not least Filmop International fulfils the criteria of **BRC** (since 2006): a structured management control system for hygiene supervision and product security.

Certification valid for Rapido Super microfiber mops

Certification valid for Alpha trolley art. MA2606701U000

A CONSTANT COMMITMENT TOWARDS ENVIRONMENTAL SUSTAINABILITY

→ Filmop: your green products supplier

**green
solutions**

love clean, be green

LEADING COMPANY FOR SUSTAINABLE DEVELOPMENT

Filmop contribution to these important goals finds fulfilment in its engagement:

- **To make the most of each person as a human being:** the company has a modern and avant-garde structure with wide offices featuring individual booths and working tools, respecting healthcare laws, bright warehouses and industrial machines in compliance with workers' safety. Moreover, Filmop is strongly committed against the exploitation of minors' work, has a steady attention to job opportunities to people with disabilities and can boast a staff with long term seniority (15 - 20 years).
- **To protect the environment:** today, compared to the past time, there are surely the means and knowledge to make conscious choices for environment preservation. Favouring products in compliance with EU laws and manufactured by certified companies can really make the difference.

OUR GREEN SOLUTIONS

Since the very beginning the company has indeed undertaken a **clear path towards eco-sustainability**.

Many are the steps that translate the green soul of Filmop International into several concrete and certified results:

CHOOSE PRODUCTS MADE FROM
RECYCLING MATERIALS,
GUARANTEED BY A SAFE
CERTIFIED ECOLOGICAL MARK

→ **Filmop: your green products supplier**

PSV CERTIFIED PRODUCTS

Filmop is proud to be the very **first Italian manufacturer** of janitorial products to get the Plastic Second Life certification by the Institute for the Promotion of Recycled Plastics (IPPR).

PSV is the first **Italian and European trademark for recycled plastic materials**: a **product's environmental certification** to guarantee, highlight and identify more easily all products manufactured by using recycled plastics.

Nowadays **Public Authorities** are obliged to purchase a minimal amount of products made from recycled materials, for all cleaning distributors selling to public authorities this means to offer PSV certified products and to be qualified as preferred suppliers in accordance with the policies defined in the GPP (Green Public Procurement).

Filmop offers different product lines with **higher PSV polypropylene percentages than minimum required, maintaining original colors, variety of models and the same quality as before.**

Moreover, Filmop promotes total recycling of end-of-life products: the **whole range of plastic products**, entirely made in Italy, is **100% recyclable.**

DOSE EQUITABLY, SAVE CLEANING SOLUTION

→ **Filmop: your green products supplier**

CHANGE YOUR WAY, CHOOSE A MORE ECO-FRIENDLY CLEANING!

Equodose is the innovating mechanical dosing device developed by Filmop to **soak on demand** only the mops required by the cleaning service **directly on site**.

The system is designed with an **adjustable dosing mechanism always ready to use**, representing the ideal solution for emergency cleaning and extraordinary sanitization.

It is a **green solution** because it guarantees:

- **SAVING OF CLEANING SOLUTION:** you can soak only the required mops and only the side of the mop that gets in contact with the floor
- **HIGH FLEXIBILITY:** you can dose the quantity of cleaning solution for each mop, according to the surface to clean
- **ENERGY SAVING:** you do not consume electric power since the dosing system is totally mechanical and does not require batteries
- **MATERIAL RECYCLING:** you use a 100% recyclable product made of high quality Made In Italy materials

Furthermore, the use of Equodose allows **reducing the working time and the cost of preparing mops** compared to the preventive pre-soaking operations.

EQUODOSE®

MICROFIBERS WIDE RANGE

→ **Filmop: your green products supplier**

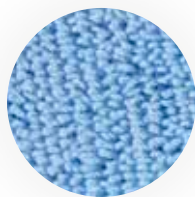

FILMOP MICROFIBERS: HIGH EFFICIENCY TOWARDS GREEN

Filmop offers a wide range of **microfiber mops and cloths** to clean any type of surface with the utmost care.

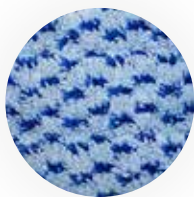

The extra-fine fibers of the microfiber yarn penetrate deep into **grooves and pores of the floor**, absorbing the removed dirt and retaining it till mop washing.

High performance and **high hygiene**: ocombined together: nowadays it is widely known that microfibers used with disinfection wet mopping systems are extremely effective in the **removal of germs and bacteria**.

Moreover: microfiber is more resistant to the washing cycles in comparison to natural fibers, allowing a longer life cycle of the mops. saving water and cleaning solution. Una scelta **green!**

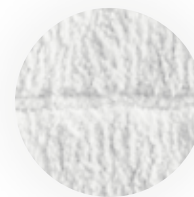

Micro-Activa

Rapido Super

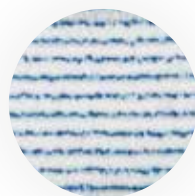

Smart-Fur

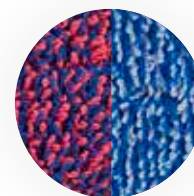

Active-Fur

Energy-Fur

Skill-Fur

Puli-Brush

* Filmop has obtained for its **RAPIDO SUPER** microfiber mops the prestigious certification **EU Ecolabel**, the most common and widespread European Union environmental quality label among consumers.

EU Ecolabel rewards the best **low environmental impact products**, qualifying them in the market and differentiating them from the competitors, after having evaluated their sustainability over their entire life cycle through a very selective series of parameters established by the European Union.

Rapido
SUPER

SYSTEMS THAT MAKE WASTE COLLECTION EASIER

→ **Filmop: your green products supplier**

WITH FILMOP YOU REALLY MAKE... THE DIFFERENCE!

Filmop realized an exclusive product to make separate waste collection easier: **AlphaSplit** is the first and only trolley in the market that can be **customized up to 8 different compartments**.

Thanks to the innovative 90 L bag holder with removable lower drawer it is possible to find the **right place for every kind of rubbish** in only one collection compartment.

As Alpha line, **AlphaSplit** trolleys as well are made of **PSV - Plastic Second Life** with a minimum of 30% recycled plastics deriving exclusively from certified suppliers which have been selected.

Filmop completes the range of products for a simpler and more efficient waste collection with **several bins with color coding system**, nice and easy to clean.

Plastic Second
Life Certification

AlphaSplit

EPD CERTIFICATION ENVIRONMENTAL PRODUCT DECLARATION

→ **Filmop: your green products supplier**

EPD®

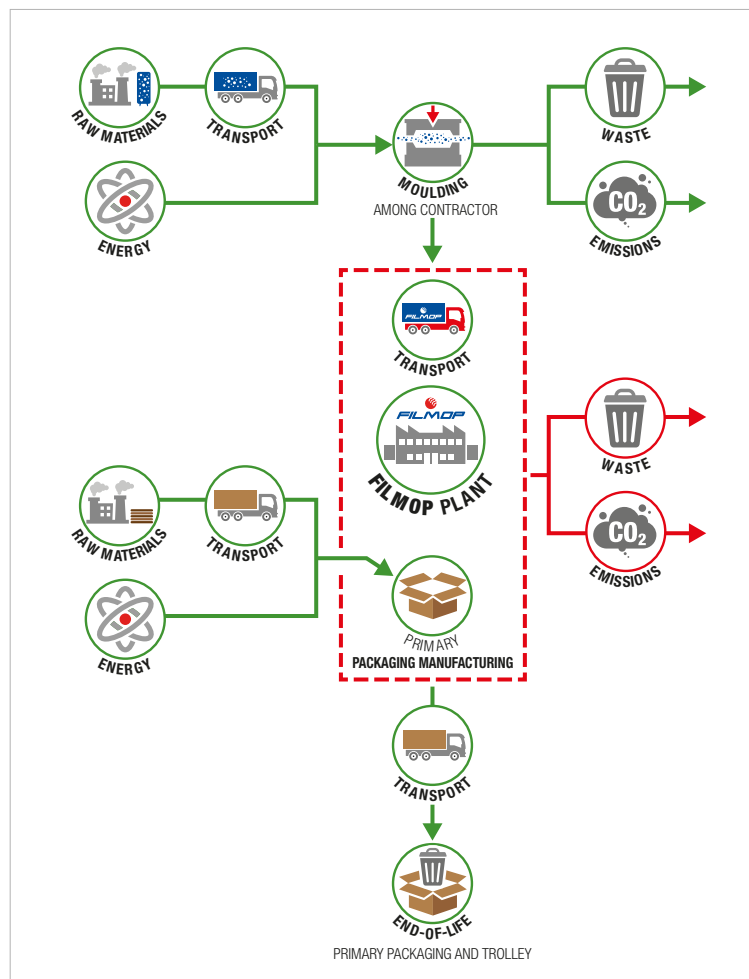

EPD: THE LATEST FILMOP GREEN GOAL

In 2017, Filmop obtained the **Environmental Product Declaration** for the cleaning trolley of the **Alpha** line cod. MA2606701U000 with **Top-Down** hermetic buckets.

This declaration, better known as **EPD** (Environmental Product Declaration), is a tool aiming at making transparent and objective communications about the environmental impact of goods and service, promoting the development of the green market, to which the European Union aspires.

EPD is an **environmental label of the III kind**: a document with which Filmop decided to supply **detailed information** about its own production, following the assessment of the **life cycle** ((LCA - Life Cycle Assessment) as methodology for identifying and quantifying environmental impacts, estimating and declaring for each category of environmental impact the related value of uncertainty according to UNI Italian standard 11698:2017.

TEXTILE PRODUCT MANUFACTURED USING SOLAR ENERGY

→ **Filmop: your green products supplier**

GREEN ENERGY FOR A BETTER FUTURE!

At a time when **safeguarding our environment** is a world-heavy need, Filmop is strongly committed to a policy of **sustainable development**.

Sustainable development is a process of change aimed at **improving** the environmental economic, social and institutional **conditions** of nations.

This process involves the exploitation of natural resources, a direction of investment and an orientation for technological development consistent with the **needs of current and future generations**.

Filmop in 2011 chose to install a **photovoltaic system** complex at its headquarters.

The solar energy produced is capable of **fully fuelling the company's textile production**, avoiding releasing about 110 tons of CO₂ per year into the atmosphere.

Since 2011, the Venetian company has **avoided emissions** of more than 809 tonnes of **carbon dioxide in the air!**
